

Design With Confidence

Create Good Living In Your Home

Programming Your Space Questionnaire Worksheet 1

Once you wrap up the Programming Questionnaire, your answers will be super helpful for what comes next!

You'll use the responses from questions 9-13 along with the cool images from your Moodboard to create an awesome "Design Concept," which will be your roadmap to confident design decisions.

Moodboards and Design Concept will be covered in the upcoming pages. You've got this!

Programming Your Space Questionnaire

1. Define your space and its purpose?

2. Who will be using the space, and how many?

3. How will the space be used on a day-to-day basis? What is happening in this area/space?

4. What issues will need to be addressed in this area/space that have become problematic? In other words, why would you need this space to revamped or created?

Programming Your Space

5. What is the realistic overall budget for the project?

6. What is the timeline for the project? When do you need the space finished? (Time budget, is there a hard date for the completion of the project?)

7. Who will be doing the work? Will you need professional help, or is it a DIY?

8. What will need to get done, before you can start revamping the space? (Huge clean out, storage area needed, dump runs, ect..)

Programming Your Space

9. The feeling and or mood wanted in this space?

10. What design style do you like?

(Covered on pages 19-22 in Design With Confidence ebook)

11. Describe a perfect day in this space? This should make you smile.
Vision yourself using this space.

12. Colors you would like to see in this space?

13. Inspirational places or locations that this space will inherit? Example:
restaurants, hotels, favorite outdoor spots, museums.

Programming Your Space

14. Where are your favorite places to shop for your home?

15. What items that you already own will be going into the space?

16. What items will need to be purchased for the space?
